

Dear Patient

Following 5 memorable years at Wilderness Road Surgery it is with regret that we write to inform you that Dr Jiwanji and the other Partners will be leaving the Practice. Many of you will remember Dr Chadha. We hope that you will agree that the last 5 years has seen Wilderness Road Surgery grow and develop while maintaining the caring and patient focused culture that were so important to Dr Chadha.

The decision to leave Wilderness Road Surgery was difficult to make. The direction of travel of the NHS and in particular the increasing importance of local primary care networks has reduced the benefits of being linked with Farnham Road Practice in Slough. We therefore think that it is in the best interest of patients and our practice team that Wilderness Road Surgery retains its local focus.

The future of the Surgery remains important to us, and we wish to see it continue to prosper and deliver outstanding care. We are therefore excited to announce that the Brookside Group Practice Partners will join Wilderness Road Surgery. We expect this change to occur on 1 November 2021.

Brookside Group Practice and Wilderness Road Surgery are already partners in the local primary care network. The two Practices will be working more closely together in future to deliver and enhance the healthcare services offered to all our patients. We have already cooperated successfully this year to provide our patients with Covid vaccinations and we will continue in much the same way to ensure a smooth delivery of services such as the proposed Covid booster programme in the autumn.

Initially, Wilderness Road will continue to run in much the same way as it is now, however, we hope over time, that Wilderness Road patients will have access to the additional and improved services that Brookside Practice provides to its patients in the local community. Please note also that all Saturday appointments for Covid booster and flu jab clinics will proceed as planned.

With best wishes,

Dr Matthew Shaw, Senior Partner,  
Brookside Group Practice

Dr Mustafa Jiwanji, Partner, Wilderness  
Road Surgery
